SUMMARY

Passionate developer with +2 years of experience in creating innovative web solutions. Specialized in PHP, Javascript, React, Laravel, and modern web technologies. Currently working as Full Stack Developer and Project Manager at Experts Human Capital, founder of Amoon brand, and future engineer pursuing Master's degree.

WORK EXPERIENCE

Experts Human Capital (EHC)
Feb 2025 - Present
- Freelance Developer & Project Manager
- Working as auto-entrepreneur freelancer across multiple platforms. Serving as both Project Manager and Principal Developer, leading teams and delivering high-quality solutions for various clients and projects. Currently my primary focus after leaving FMS.

Fes Marketing Service
Dec 2024 - Jul 2025
- Full Stack Developer
- Developed SaaS solutions using PHP, React, Laravel, MySQL, and CodeIgniter. Specialized in software creation, bug fixing, and innovative web applications.

XCO Agency LLC
Sep 2024 - Dec 2024
- Back-end Developer (Internship)
- Worked on Jobby, a web application connecting developers and companies. Developed using Laravel and filament with focus on job posting and searching functionality.

FATFAT
Feb 2024 - Mar 2024
- Front-end Developer (Internship)
- Developed a fitness web application with interactive features for sports and wellness enthusiasts. Focused on user experience and modern UI/UX design.
